Completely familiar, entirely innovative

As market leaders with 30+ years' experience, we understand the need for reliable test solutions that keep track with technological developments – without compromising on the standards set by existing solutions.

Solo 365 is true to this belief – it's lighter to use, quicker to test, suitable for more applications and almost impossible to over-apply – eliminating the risk of detector contamination.

This new method of smoke generation takes Solo – the industry's most trusted brand – to the next level. Solo 365 offers everything the industry expects from the Solo brand, pairing it with the very latest technology and wrapping it in a new modern slim-line design and incorporates non-hazardous, non-pressurised cartridges.

Engineered to be compatible with the increasing number of sophisticated detectors now available, Solo 365 also overcomes the regulatory issues associated with pressurised aerosol canisters.

Latest technology

- Proximity Sensor**
Automatic generation of smoke as the detector enters and leaves the cup
- Clear Cup & Vent**
Allows easy viewing of the detector during testing and ensures smoke is quickly removed after testing
- LED Torch**
Automatically illuminates when light levels drop, allowing easy alignment with detector
- Consumables Compartment**
Neatly houses all consumables, enabling easy replacement
- Function Button/Delayed Start Mode**
Perfect for testing ASD systems or detectors which cannot enter the cup
- Status LEDs**
Provides notification of unit mode status

Testing aspirating smoke detection systems

There's even more to Solo 365 – the ability to functionally test ASD systems. This exciting development is made possible through a specialist adaptor which is fitted to Solo 365 in place of the standard clear cup.

Utilising the 'Delayed Start' mode
Allows time for the adaptor to be positioned before smoke is generated.

Portable ASD tester
Puts the ability to test standard point type smoke detectors and ASD systems into one portable tester – for the first time.
